OUR HIGHLY EFFECTIVE METHODS ARE 100% DOG FRIENDLY AND TAUGHT WITH EMPHASIS ON TRUST AND COOPERATION SO YOU CAN TRULY BE YOUR DOG'S BEST FRIEND

Mary has over 15 years of experience as a dog trainer and has helped thousands of clients with their canine buddies.

As she helped and learned from others, she also learned valuable lessons from her own dogs, a cocker spaniel, west highland white terriers, border collies and mixed breeds. Many of these dogs came from rescue situations and Mary successfully rehabilitated them all.

Mary trains and competes in both obedience and agility. She has won the Canadian National Agility Competition twice, once with Duffy, a Westie and again with Skye, a border collie.

Mary believes in staying current with modern dog training techniques, and has attained vast knowledge of dog behavior and effective training techniques by attending many conferences and seminars by many of the world's experts on canine behavior.

"I love Mary's style of training without using any kind of physical manipulation of your dog. Many years ago I trained my Doberman's with a method of training, which utilized choke chains, and physical correction. Mary's style of training is, in my opinion, much more effective. I would not hesitate to recommend 5 STAR DOG TRAINING to anyone, and in fact have, many times.

"FIVE STAR DOG TRAINING is an outstanding place to go for obedience, rally-obedience and agility training. The environment and training style is very positive and upbeat, and can cater to many different personalities of dogs. The trainers are very helpful and give lots of suggestions to help any problems a dog may have. All the dogs can't wait to get into class and have a blast while they're there. "

5 STAR DOG TRAINING has been the best thing EVER. I have had many Schnauzers before Que, and I would have to say that your style of training has brought out the best in him and me.. THANKS so much.

'Not only did Maya and I learn all sorts of new skills and dog related information but I brought it home and shared it. For example my family and friends all look at a dog differently now when it yawns! Maya had so much fun at these classes that as we walked out the door she would sit down and now want to leave. It took a bit of convincing but I did manage to get her to the car eventually!' 5 STAR is our 1st choice!
